

HR-50

Specification

Coverage	100-150m ² (1,176-1,614ft ²)
Power Supply	110V or 220V / 50Hz or 60Hz
Power Consumption	90W
Humidification Capacity	2,500cc/4,000cc(1.05gallon/hour)
Feed-Water Pressure	Less than 5kg/cm ²
Dimensions	370 × 370 × 480mm(14.56" × 14.56" × 18.90")

Features

- a) Easy to install(Connect to water tap or water tank)
- b) Various space usage (on-wall)
- c) Easy to carry by handle
- d) trouble-free simple structure (High durability)
- e) Good for chemical disinfection & deodorization
- f) Good for electronics, textile, tobacco factories,low-temperature warehouse and mushroom cultivation

Applications

Greenhouse, propagation room, research chamber, storage room, nursery, mushroom and orchid cultivation, chicken-breeding, textile, tobacco and timber industries

Notes

- a) Set it up horizontally to control the water level
- b) Make sure the connecting wire is long enough
- c) Check and clean the water tank periodically
- d) If there is no humidification, turn power off and check the water level
- e) If water overflows, turn the water tap off and check the float valve
